Australian Government

International Education Providers – Progress Against Indicative Allocations

Data from Provider Registration and International Student Management System (PRISMS) as at:
27 February 2026

Overall progress against the National Planning Level

2026 New Overseas Student Commencements (NOSCs)

	Total Indicative Allocations	Current and future 2026 NOSCs	Current 2026 NOSCs and future 2026 NOSCs with student visas	Current 2026 NOSCs
Higher Education	**196,200**	**120,400**	**101,900**	**54,300**
Public Universities	161,500	90,700	77,300	44,100
Other higher education providers	34,700	29,700	24,600	10,200
Vocational education and training	**94,500**	**40,800**	**35,300**	**19,900**
Total	**295,000**	**161,200**	**137,200**	**74,200**
		55%	47%	25%

Notes:

- *"Current and future NOSCs" includes students who have commenced their study in Australia, as well as future students who have been approved by their provider.*
- *"Current and future NOSCs with student visas" includes students who have commenced their study in Australia, as well as future students who have been approved by their provider and who have an active student visa visible in PRISMS. It is the measure used to determine if a provider has reached the prioritisation threshold under Ministerial Direction 115.*
- *Figures have been rounded to the nearest 100. Source: Provider Registration and International Student Management System.*

Ministerial Direction 115 (MD115) and Provider Indicative Allocations

Under MD115, Student visa applications made by applicants outside Australia are given one of three priority levels: Priority 1, Priority 2, or Priority 3. Priority status is determined by the associated provider's progress against their indicative allocation and whether the applicant meets one of the exemption criteria that provides automatic Priority 1 processing.

Priority 1

A student visa application made outside Australia will have *Priority 1* processing status if at the time the applicant lodges their application

- they meet one of the exemption criteria that provides automatic *Priority 1* processing, or

- their associated provider has not reached their prioritisation threshold. This is 80% of their indicative allocation, as measured by Confirmations of Enrolment (CoEs) that meet the definition of a New Overseas Student Commencement (NOSC) or will meet the definition once the student commences study and that have a relevant visa attached.

All offshore student visa applications in the following exempt categories under MD115 will receive *Priority 1* processing regardless of Provider Allocation Status:

- School students
- Non-award sector students, including short term exchange students
- Standalone ELICOS students
- Students enrolled with a TAFE provider
- Students enrolled in Pilot Training Courses
- Students enrolled in postgraduate research courses
- Foreign Affairs Students, Defence Students and students sponsored by the Commonwealth
- Students with foreign government and state and territory government scholarships
- Students from the Pacific and Timor-Leste
- Students in certain transnational education arrangements

(MD115 provides further details on these exempt categories)

Priority 2
Student visa applications made by applicants outside Australia will have Priority 2 status if their associated provider is at or above 80% of their indicative allocation but below 115% of their indicative allocation, and the applicant does not meet any of the exemption criteria.

Priority 3
Student visa applications made by applicants outside Australia will have Priority 3 status if their associated provider is at or above 115% of their indicative allocation, and the applicant does not meet any of the exemption criteria.

Information on average processing times for Priority 1, Priority 2, and Priority 3 is available on the Department of Home Affairs website.

The Small Provider Pool contains VET and dual sector providers with a total Indicative Allocation of less than 100 and a prioritisation threshold count of less than 80 NOSCs. Visa applications associated with providers in the Small Provider Pool will all receive the same priority level as indicated, based on the progress of the pooled providers against their combined allocations.

Provider priority status does not affect Student visa outcomes. All student visa applications will be considered by relevant delegated officers regardless of priority level - priority levels under MD115 affect the time taken to process an offshore student visa application. Prospective students looking to submit an application associated with a provider at *Priority 2 or Priority 3* level processing should allow extra time for their visa application to be considered.

This report provides the allocation status for publicly-funded universities and other higher education providers (including providers delivering higher education and vocational education and training). Allocation statuses for all other vocational education and training providers are not publicly available at this stage.

This report is expected to be updated weekly.

Publicly funded universities

CRICOS code	Provider	Indicative Allocation	Allocation Status
04249J	Adelaide University	7350	Priority 1
00004G	Australian Catholic University Limited	1900	Priority 1
