NDRI Targeted Discussion – NDRI for Humanities, Social Sciences and GLAM

Monday 30 September, 2pm-4pm AEST

Discussion Questions and Agenda

- What are the gaps and weaknesses in Australia's NDRI landscape for our humanities, social sciences and GLAM sectors?

- What is the vision for humanities, social sciences and GLAM NDRI?

- What NDRI investments would you prioritise as urgent to support and grow maturity for the humanities, social sciences and GLAM sectors?

- How can NDRI investments support the creation, management and access to digital twins?

- What specific training and resources are needed to equip researchers in humanities, social sciences and GLAM with the skills to leverage digital research infrastructure effectively?

- What international exemplars of large-scale research infrastructure investments to support the humanities, social sciences and GLAM sectors do you recommend Australia should consider as part of the NDRI IP?

- Which areas within humanities, social sciences and GLAM are most likely to gain advantage from AI? How can an investment in the context of the NDRI Strategy facilitate this?

- **What are the priority humanities, social sciences and GLAM NDRI investments that would enhance Australia's research efforts?**
