Glossary

Term	Definition
Allocation	The public funding provided by governments to Approved System Authorities.
Approved authorities	Legal entities approved under the Act that can receive Australian Government recurrent funding for one or more schools.
Approved system authorities	Approved authorities for more than one school that distribute Australian Government recurrent funding according to their own needs-based funding arrangement (as defined by subsection 78(6) of the Act).
Assurance	The process of providing confidence and comfort that policies, procedures, controls or activities are effective and relative to the risk profile and operating environment.
<i>Australian Education Act 2013</i>	The <i>Australian Education Act 2013</i> is the principal legislation governing the provision of Commonwealth funding to government and non-government schools as well as supporting the objectives of intergovernmental agreements on school education.
Australian Education Regulations 2023	The Australian Education Regulations 2023 provide more detail to support the operation of the <i>Australian Education Act 2013</i> . They outline the conditions required to be met to receive funding under the <i>Australian Education Act 2013</i> .
Australian Government Department of Education (the department)	Commonwealth department that contributes to Australia's economic prosperity and social wellbeing by creating opportunities and driving better outcomes through access to quality education.
Block Grant Authorities	Block Grant Authorities are bodies corporate approved by the Minister to administer capital funding grants for non-government schools.
Compliance	An activity or action undertaken to provide proof/verification of an outcome.
Nationally Consistent Collection of Data on School Students with Disability (NCCD)	The NCCD is used to calculate the student with disability loading in recurrent funding for schools provided by the Australian Government. This loading is based on the level of adjustment being provided to the student. The NCCD collects data about school students with disability across Australia in a consistent, reliable and systematic way.
Non-Government Representative Bodies (NGRBs)	Bodies approved by the Minister under section 91 of the <i>Australian Education Act 2013</i> to represent non-government schools.
Non-Government Schools Census	An annual collection of information on students and staff from all non-government schools that have, as their major activity, the administration or provision of full-time primary, secondary and/or special education.
Post enumeration	An annual process to verify the accuracy of information provided by non-government schools in the Non-Government School Census that is used to calculate the school's Australian Government funding entitlement.
Public funding	Recurrent funding for school education provided by the Australian Government and state and territory governments.
Schooling Resource Standard (SRS)	An estimate of how much total public funding a school needs to meet its students' educational needs. It is calculated using a base amount for each primary and secondary student plus a loading amount of 6 additional loadings for schools with students with greater needs. The base amount and most of the loadings are worked out by reference to an amount per student called the SRS funding amount. The combined base and loading amount for a school is often referred to as the school's SRS.

Executive Summary

Introduction

The primary objective of this annual report is to meet the requirements under section 127 of the *Australian Education Act 2013* (the Act). It requires the Minister for Education to table a report in Parliament as soon as practicable after 30 June each year on:

- a. any financial assistance paid to an approved authority in the previous year under this Act
- b. the application of any financial assistance paid to an approved authority in the previous year under this Act
- c. any decisions made under any of the following provisions:
 - i. section 74 (relating to public interest test in considering whether to approve a person as an approved authority)
 - ii. subsection 76(2) (approved authorities for government schools not taken to satisfy basic requirements)
 - iii. paragraph 81(1)(c) (variation or revocation of approval of approved authority in public interest).
- d. any other matter prescribed by the Regulations.

Australian Government recurrent funding for schools is based on the [Schooling Resource Standard](#) (SRS). This funding is passed on to Approved Authorities (AAs) who are responsible for the administration and operation of schools. For government schools, the AA is the relevant state or territory. For non-government schools, the AA is the body corporate approved by the Minister for the school/s.

The Act recognises that AAs are best placed to understand the individual needs of their students and schools. AAs for more than one school are able to distribute the Commonwealth funding they receive among their schools in either of two ways:

- according to the SRS (under subsection 78(4) of the Act); or
- by choosing to redistribute that funding among its individual member schools according to their own needs-based funding arrangements (under subsection 78(5) of the Act).

AAs that redistribute funding in accordance with subsection 78(5) of the Act are known as Approved System Authorities (systems). For government schools, the systems are the state and territory governments. For non-government schools, the systems are the approved Catholic and independent bodies corporate.

In this report, information is presented on financial assistance paid to AAs in the 2024 school year.

Financial assistance reportable under section 127 of the Act

Financial assistance (exclusive of Goods and Services Tax (GST)) paid by the Australian Government to the schools sector in the 2024 calendar year is reportable under section 127 of the Act and is summarised in Table 1 below. Approximately \$11.4 billion was provided to the states and territories for government schools (as AAs), and approximately \$18.7 billion was provided to the non-government schools sector (via the state and territory treasuries). Total funding paid in the 2024 calendar year was approximately \$30.1 billion.

Note that Table 1 includes funding to Block Grant Authorities for capital funding, and funding to Non-government Representative Bodies (NGRBs) for the Choice and Affordability Fund (CAF).

Appendix A provides detailed information on funding provided to each AA in 2024. The funding reported includes recurrent funding calculated with regard to the base amount and relevant loadings under the SRS¹.

* Capital funding for schools in the Australian Capital Territory and the Northern Territory is paid to a single Block Grant Authority in each of these jurisdictions with representatives from both the Catholic and Independent sectors.

¹ Any payment adjustments to funding that have occurred for AAs are also reported. Payment adjustments are a result of changes to previous year/s entitlements due to changes in enrolment or other factors that determine the annual funding calculated for a school. Note that payment adjustments can apply to recurrent funding as well as prescribed circumstances funding.

As illustrated in Figure 1 below, the majority of funding provided to the sector in 2024 related to recurrent funding (approximately \$29.7 billion or 98.6% of total financial assistance).

Under the Act, the Australian Government has provided approximately \$233.6 billion of financial assistance to the government and the non-government sectors over the period 2014 to 2024 (see Figure 2 below). Approximately 61.9% of Australian Government funding flowed through to non-government schools.

Schools assurance and compliance activities

The Department of Education (the department) applies a risk-based approach to assurance and compliance (refer to the department's publication [Schools Funding Assurance Framework](#)). The risk-based approach assures that Australian Government funding for schools is appropriately used for school education purposes, without imposing unreasonable administrative burden on funding recipients. The department's assurance and compliance activities assist and encourage the sector to be compliant and stay compliant.

Key financial assurance and compliance activities that are undertaken by the department include:

- Annual funding acquittals review to provide assurance of AAs' use of funds. These acquittals require independent qualified accountant sign-off for non-government AAs.
- Annual review of audited financial statements for potential compliance issues.
- Annual financial viability assessments.
- Census post-enumeration data checking. This annual process is conducted to confirm that student information reported in the annual Non-Government Schools Census is accurate for funding and reporting purposes.
- Audit and compliance reviews of approved authorities in relation to basic and ongoing funding requirements in the Act and the Regulations.

In addition, the department undertakes policy assurance to ensure that schools are applying Australian education policies and requirements of nationally agreed policy objectives.

01.

SECTION 1: Framework for funding arrangements and financial assistance

This section of the report provides a brief overview of the current funding arrangements for schools and the type of financial assistance provided by the Australian Government. It also provides an overview of the legislative and regulatory framework under which financial assistance is paid.

The requirements in section 127 of the Act are also discussed.

Funding of schools in Australia

State and territory governments are responsible for the provision of school education in their jurisdictions, including registering and regulating schools (whether government or non-government) and operating government schools.

The Australian Government has a national role in school funding and policy under the Act and values the role of states and territories in registering, managing and regulating schools. Funding responsibility is shared between the Australian Government and state and territory governments.

Schools receive funding from both the Australian Government and their state or territory government:

- States and territories are the majority public funder of the government sector in line with their constitutional responsibility. The Australian Government is the minority public funder.
- The Australian Government has historically been the majority public funder for non-government schools, reflecting its commitment to supporting parental choice and diversity in the schooling system. State and territory governments are the minority public funders for this sector.

Australian Government funding arrangements

From 2024, all schools are attracting a Commonwealth share of:

- at least 20 per cent of each school's SRS for government schools, unless a higher share is set out in the Australian Education (Commonwealth Share for Government Schools) Regulations 2024
- at least 80 per cent of each school's SRS for non-government schools.

In 2024, all schools attracted Commonwealth recurrent funding calculated using, at a minimum, the Commonwealth target SRS share for their sector.

Non-government schools that are currently funded above their target Commonwealth share will be smoothly transitioned to the target share by 2029.

Under the current arrangements, state and territory governments are also required to deliver their share of total public funding.

The Schooling Resource Standard

Australian Government funding for schools is calculated in accordance with the SRS funding arrangements set out in the Act. The SRS is made up of a base amount for each primary and secondary student enrolled at the school (which includes, for most non-government schools, the capacity of the school's community to contribute financially to the school), and up to six needs-based loadings for student priority cohorts and disadvantaged schools. This will ensure that students with greater needs will attract higher levels of funding from the Australian Government, and students with the same need within the same sector will attract the same support from the Australian Government, regardless of the state where they live.

Base amount provides funding for every student

A school's base amount is calculated each year in accordance with section 33 of the Act. The number of students enrolled at the school for the year is multiplied by the SRS funding amount for the year for each student. In 2024, the SRS funding amount was \$13,570 for primary students and \$17,053 for secondary students.

For most non-government schools, the SRS base amount includes a discount to reflect the anticipated capacity of the school community to financially contribute to the school's operating costs relative to the capacity of other non-government schools. This is known as Capacity to Contribute (CTC). The CTC does not apply to government schools, non-government special and special assistance schools, non-government majority Aboriginal and Torres Strait Islander schools, and non-government sole provider schools.

Since 2022, the direct measure of income (DMI) has been fully implemented and is a robust and accurate measure for calculating a school community's capacity to contribute. The DMI uses the latest available whole of government data to calculate the capacity of parents and guardians to contribute to the ongoing costs of running their school. This ensures more Commonwealth Government funding flows to the schools that need it the most.

Loadings provide extra funding for priority student cohorts and disadvantaged schools

Up to four student-based loadings and two school-based loadings are calculated for a school each year in accordance with Part 3, Division 3 of the Act. These make up the total loading used to calculate the school's SRS.

Student with disability loading

This loading provides extra funding, in addition to the SRS base amount, for eligible students with disability. Since 2018, the loading has been based on the Nationally Consistent Collection of Data on School Students with Disability (NCCD), which collects information on students with disability by the level of additional support they are provided to access and participate in learning. Under the NCCD, the schools use their professional, evidence-based judgement to capture information on the level of additional support a student is provided in the classroom.

Students with disability who are counted in the top three levels of the NCCD (supplementary, substantial, and extensive) attract additional funding through the student with disability loading. The amount of the loading reflects the level of support they need to participate fully in school, with higher funding for those who need higher levels of support.

The NCCD captures a fourth level of adjustment defined as 'support provided within quality differentiated teaching practice' commonly referred to by the acronym QDTP. This level of adjustment counts students with disability that receive minor adjustments reasonably expected as part of quality teaching/school practice. These adjustments are provided through usual school processes, without drawing on additional resources.

Low English proficiency loading

This loading provides extra funding, in addition to the SRS base amount, for students from a language background other than English where at least one parent has completed school education only to Year 9 (or equivalent) or below. This may include recently settled migrants and refugees. This loading is calculated using data provided by the Australian Curriculum, Assessment and Reporting Authority (ACARA). All students in this loading attract an additional 10% of the SRS funding amount.

Aboriginal and Torres Strait Islander student loading

This loading provides extra funding, in addition to the SRS base amount, for each Aboriginal and Torres Strait Islander student. The amount of extra funding for each student depends on the proportion of Aboriginal and Torres Strait Islander students in the school. The loading ranges between 20% of the SRS funding amount to 120% of the SRS funding amount. The greater the proportion of Aboriginal and Torres Strait Islander students in the school, the higher the loading.

Socio-educational disadvantage loading

This loading provides extra funding, in addition to the SRS base amount, for each student from a socio-educationally disadvantaged background. The loading amount is based on the percentage of students in the lowest two quartiles of socio-educational advantage (SEA) developed by (ACARA). The SEA measures the occupational and educational status of students' parents by looking at factors like occupation, completed school education and highest level of post school education.

The greater the percentage of a school's students in each of the bottom two quartiles of the SEA, the higher the loading, up to a maximum of 50% of the SRS funding amount for Quartile 1 and 37.5% for Quartile 2.

School location loading

This loading provides extra funding for schools in regional and remote locations in recognition that it generally costs more to educate students in regional and remote schools than it does to educate students in city-based schools. The loading is based on a school's Accessibility/Remoteness Index of Australia (ARIA) score, a measure of the remoteness or accessibility of every location in Australia, as a percentage the SRS funding amount and the school's size loading.

School size loading

This loading provides extra funding for medium, small and very small schools in recognition that they cannot achieve the same efficiencies of scale as a large school. This is the only loading that is calculated as a set dollar amount (rather than as a proportion of the SRS funding amount).

Primary schools with up to 300 students and secondary schools with up to 700 students attract a size loading. The size loading is scaled:

- primary schools with between 15 and 200 students attracting the maximum loading of \$214,005 in 2024
- secondary schools with between 100 and 500 students attracting the maximum loading of \$342,411 in 2024.

Prescribed circumstances funding

Prescribed circumstances funding provides additional financial assistance to eligible government and non-government schools. It included \$8.9 million to Northern Territory government schools to accelerate delivery of evidence-based reforms. Additionally, \$46.1 million was provided as adjustment funding for highly disadvantaged independent schools.

Capital funding

The Capital Grants Program (CGP) provides funding to non-government primary and secondary schools to improve infrastructure, where they otherwise may not have access to sufficient capital resources. The CGP is additional to funds provided by state and territory governments, non-government school authorities, and school communities, which are responsible for providing and maintaining non-government school facilities².

Funding for non-government representative bodies

Funding for non-government representative bodies (NGRBs) is paid through the Choice and Affordability Fund (CAF).

Choice and Affordability Fund

The CAF commenced on 1 July 2020 with an estimated \$1.2 billion to be provided to the non-government sector until 2029. Funding is provided for the non-government school sector under section 70 of the Act. Catholic and independent NGRBs in each state and territory administer funding in line with the five priority areas for the fund, including special circumstances.

The CAF prioritises assistance for non-government schools transitioning to the new DMI funding arrangements. It also prioritises funding for schools affected by drought, bushfires and other natural disasters, particularly where this affects a school's short-term financial viability. Other priorities include providing choice to parents of an affordable school that will best suit their child, enhancing student wellbeing and support initiatives, and lifting outcomes in underperforming schools.

² Since January 2014, Australian Government funding for government schools (including its contribution towards the capital needs of government schools) has been delivered through the annual grants provided to state and territory governments under the Act.

The Act and Regulations

The Act is the principal legislation governing the provision of Commonwealth funding to government and non-government schools as well as supporting the objectives of intergovernmental agreements on school education. The Australian Education Regulations 2023 (the Regulations) provide more detail to support the operation of the Act. They outline the conditions required to be met in order to receive funding under the Act.

The Act is guided by the principles that education is the foundation of a skilled workforce and a creative community; that Australia's future prosperity depends on a strong and sustainable schooling system; and that education also has a role to play in overcoming social and economic disadvantage.

The Act and Regulations impose conditions requiring states and territories to implement National Policy Initiatives for school education, which assists with public confidence in the education system.

The Act and the Regulations can be modified as required to ensure they reflect current policy needs. This is carried out in consultation with key stakeholders, including as required under section 130 of the Act. Ongoing policy requirements must be met by recipients to remain eligible for future funding.

The Act provides Commonwealth financial assistance for schools. The financial assistance is provided to states under section 96 of the Constitution, and to territories under section 122 of the Constitution.

The financial assistance is provided directly to a state or territory for its government schools. Financial assistance for a non-government school located in a state or territory is provided to the state or territory which must provide it to the AA for the school.

Use of recurrent funding

Section 78(2)(b) of the Act requires AAs to manage financial assistance payable under the Act according to the Regulations. Section 29 of the Regulations sets out the main requirements for AAs' use of recurrent funding provided under the Act.

Recurrent funding (including any interest earned on recurrent funding banked or invested by the AA) must be spent, or committed to be spent, by an AA:

- for the purpose of providing school education at a school for which the AA is approved
- by the end of the calendar year in which it was paid to the AA³.

Recurrent funding must be used for the purpose of providing school education, for the levels of education that is, primary education or secondary education, as defined in section 15 of the Act.

Recurrent funding cannot be used for:

- pre-school education or programs
- early childhood education and care
- before and after-school care or vacation care
- vocational education and training that is not part of a recognised secondary school curriculum
- boarding services.

³ This requirement applies unless the Minister has determined a different time limit, under paragraph 29(7)(b) of the Regulations. Please note an extension of time to expend or commit recurrent funding is generally only provided in exceptional and unforeseen circumstances.

Subsection 29(2) of the Regulations sets out a non-exhaustive list of examples of general recurrent costs of providing school education, including:

- salaries and other expenses relating to staff at the school, including expenses related to the professional development of the staff
- developing or purchasing materials related to the school's curriculum, such as textbooks, art supplies or sporting equipment
- general operating expenses of the school, for example:
 - utility bills
 - insurance costs
- maintaining the school's land and buildings, for example:
 - routine maintenance or repairs to school buildings (such as repairing doors, windows, or guttering)
 - replacing like for like fixtures (such as carpets)
 - school grounds upkeep, such as mowing
- purchasing capital equipment for the school, for example:
 - non-fixed desks
 - chairs
 - portable air conditioning/heating
 - computers and other information and communication technology
- administrative costs associated with the AA's compliance with the Act and the Regulations. For example:
 - staff costs in meeting Australian Government reporting requirements
 - participating in NAPLAN or other national assessments.

Restrictions on the use of recurrent funding for capital purposes

An AA for a non-government school that has a CTC greater than zero per cent must not use recurrent funding for:

- the purchase of land or buildings for the school
 - for example, recurrent funding cannot be used to purchase an adjacent block of land, including any buildings on that land, for an expansion of the school, or land in another location for an additional campus of the school.
- the construction of a building, or part of a building, for the school
 - for example, recurrent funding cannot be used for any construction of a building, or part of a building, at the school that does not constitute maintenance or repairs. This could include but is not limited to, the construction of any new or modified classroom, administration building, multipurpose room, school hall, bus/bike shelter, shed, sporting facility, walkway, or ramp.
- capital improvements for the school
 - for example, recurrent funding cannot be used for any non-building construction related capital works or fixtures that lead to a capital improvement. This could include but is not limited to, affixed air conditioning/heating units, sports grounds, swimming pools, basketball and netball courts, other sporting facilities, fencing, carparks, gates, garden shelters, or affixed security features.
- any form of loan, credit facility, or other interest in relation to the above
 - in this context, 'other interest' refers to legal interest, for example, an option to purchase land. Note, however, that interest payments on a loan or credit arrangement for capital purposes (identified above) are recognised as a general recurrent cost of providing school education and are allowed under subsection 29(3)(a) of the Regulations.

01.

Schools with zero per cent capacity to contribute

The restrictions on the use of recurrent funding for capital purposes do not apply to AAs for schools that have CTC of zero per cent. The following types of schools have a CTC of zero (as noted under section 54 of the Act):

- all government schools
- special schools
- special assistance schools
- sole provider schools
- majority Aboriginal and Torres Strait Islander schools for a year.

Section 127 of the Act

Section 127 of the Act requires the Minister for Education to table a report to Parliament on financial assistance provided to AAs. It states:

As soon as practicable after 30 June each year, the Minister must cause a report dealing with the following to be laid before each House of the Parliament:

- any financial assistance paid to an approved authority in the previous year under this Act*
- the application of any financial assistance paid to an approved authority in the previous year under this Act*
- any decisions made under any of the following provisions:*
 - section 74 (relating to public interest test in considering whether to approve a person as an approved authority)*
 - subsection 76(2) (approved authorities for government schools not taken to satisfy basic requirements)*
 - paragraph 81(1)(c) (variation or revocation of approval of approved authority in public interest)*
- any other matter prescribed by the regulations.*

The requirements in the Act are met in the following approach in this report.

Section 127(a)

Financial assistance paid to AAs is provided in this report in aggregate, by relevant school sectors and jurisdictions, by different types of financial assurance (for example, base funding and loadings), with detailed funding data provided for each AA in Appendix A for 2024.

Section 127(b)

The application of any financial assistance paid to an AA under section 127(b) has been considered in the following ways.

Approved authority use of financial assistance funding

Under section 29 of the Regulations, AAs for schools are required to use the funding “for the purpose of school education at a school for which the approved authority is approved”.

The department receives assurance on the appropriate use of financial assistance funding via annual certifications collected under section 34 of the Regulations.

Approved authority distribution of financial assistance funding

An AA for more than one school can distribute Australian Government recurrent funding to its schools according to the SRS under subsection 78(4)—as do many independent schools; or by choosing to distribute that funding according to its own needs-based funding arrangement under subsection 78(5).

AAs which distribute funding under subsection 78(5) are known as Approved System Authorities and are referred to as systems. The largest systems are the state and territory governments and the Catholic Education Commissions in each jurisdiction.

A system’s needs-based funding arrangement (NBF arrangement) provides information on how the system distributes Commonwealth funding to support students’ educational outcomes. The NBF arrangement describes the methodology and provides a supporting rationale to demonstrate how the funds are distributed based on the system’s local understanding of the individual needs of its students and schools. Systems’ NBF arrangements must include an amount per student and loadings for students and schools with additional needs including the six identified student and school cohorts identified in subsection 78(5). The NBF arrangement must also be publicly available and transparent.

Systems’ current arrangements for distribution of funding can be accessed via the following link: [Needs-based Funding](#). Details are also provided at Appendix D.

Each year the department collects a report under section 35 and section 36 of the Regulations on the funds distributed to schools under subsection 78(5). Details on the funds distributed to each school are publicly available via [My School](#) financial information. Note that the My School website reports income from a variety of sources. At the Commonwealth level, recurrent income also includes income received by schools that is not paid under the Act.

Section 127(c)

Under this section of the Act, relevant decisions made under sections 74, 76(2) and 81(1)(c) of the Act are reported.

2024 reportable decisions

There were no reportable decisions for the 2024 year.

Section 127(d)

This section of the Act reports on other matters prescribed by the Regulations.

There are currently no other matters prescribed by the Regulations to be reported by the Minister annually to Parliament.

SECTION 2: Financial assistance paid for school education by the Australian Government under section 127 of the Act

Financial assistance paid by the Commonwealth

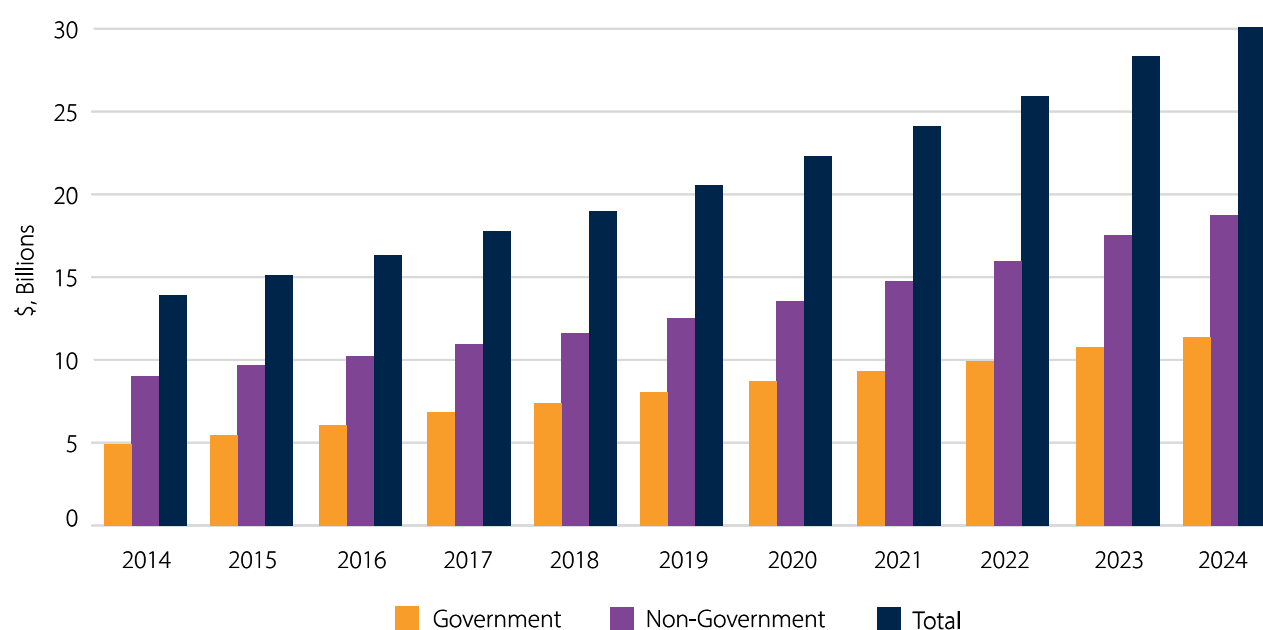

This section presents an overview of the financial assistance paid to the government and the non-government school sectors in the 2024 calendar year. The funding assistance reported includes recurrent funding, capital funding (for the non-government sector only), prescribed circumstances funding, and funding provided to NGRBs.

In 2024, the Australian Government provided approximately \$30.1 billion of financial assistance to the government and the non-government school sectors, with about 61.9% flowing through to non-government schools (Figure 3). Almost all of the funding (98.6%) was for recurrent funding (which is calculated with regard to the base funding and the loadings under the SRS).

Table 2 below provides a summary of the financial assistance paid in 2024. Detailed funding assistance provided to each AA is included in Appendix A.

Appendix B provides further information on the characteristics of AAs. How Australian Government funding for schools is distributed according to need is discussed in Appendix C. Appendix D provides a summary of the methodology applied in reporting the Australian Government financial assistance at the AA level under section 127 of the Act.

SECTION 3: Overview of schools funding assurance and compliance activities

This section provides a brief overview of the schools funding assurance and compliance activities. It focuses on activities undertaken by the department. According to the Act, the National School Resourcing Board (NSRB) is responsible for reviewing different parts of the Australian Government funding model. Under section 128(6A) of the Act, the Board is required to conduct an annual review of state and territory compliance with section 22A of the Act (s22A). This section states that, as a condition of Commonwealth financial assistance, states and territories must meet minimum school funding contributions agreed as part of bilateral agreements supporting the National School Reform Agreement. Requirements for annual reporting to the Commonwealth on state and territory funding for government and non-government schools for the purposes of assessing compliance with section 22A of the Act, including timelines, are set out in state and territory bilateral agreements

A risk-based approach to assurance and compliance

The department's risk-based approach to assurance and compliance is documented in the publication [Schools Funding Assurance Framework](#). This document provides an overview of the department's approach to managing risk of error, non-compliance and fraud in respect of Australian Government funding for school education under the Act and the Regulations.

The Schools Funding Assurance Framework is an overarching document that sets out how assurance is practically undertaken to assure:

- Australian Government funding for schools is being appropriately spent, in accordance with the requirements of the Act and Regulations
- AAs are assisted and encouraged to become compliant and stay compliant
- non-compliance is identified and addressed
- AAs are not unreasonably burdened by compliance, or forced to bear an unreasonable cost of compliance
- systemic compliance issues are identified, so that policies and processes can be amended to remedy issues.

Key assurance and compliance activities

The department undertakes financial and policy assurance and compliance activities to provide assurance that funds provided for school education purposes are used according to the regulated requirements. The key assurance and compliance activities are summarised below.

Funding acquittals

Funding acquittal is the primary assurance on the AAs' use of funding. The department collects annual funding acquittals from government and non-government AAs. These acquittals require independent qualified accountant sign-off.

Financial statement review

The department collects audited financial statements as part of the Financial Questionnaire (FQ) collection. The FQ data collection includes income and expenditure for non-government schools. The department reviews the AAs' audited financial statements to identify potential compliance and financial viability concerns. The review is conducted annually.

Financial viability assessment

The financial viability assessment is an annual process that utilises non-government AA financial information. Identified financial viability concerns are raised with the AA and assessed from a compliance perspective.

Financial Questionnaire verification

This process provides assurance that FQ data provided by non-government schools is accurate. Each year schools are randomly selected for data quality checking. This activity does not impact on funding entitlements to AAs.

Non-Government Schools Census Post-Enumeration

The Non-Government Schools Census Post-Enumeration exercise (Census PE) is an annual assurance activity to validate that school and student data self-reported in the Non-Government Schools Census are both accurate and appropriate for funding and reporting purposes. For the 2024 year, 350 non-government schools were checked.

Compliance certification process

The Compliance Certificate collection helps to provide a level of assurance that schools are applying Australian education policies and requirements of nationally agreed policy objectives. It is an annual process that applies to both government and non-government AAs.

Tip offs and media monitoring

The department reviews information received through tip offs and concerns raised in the media.

Working with other Commonwealth and state and territory regulators

The department collaborates with other Commonwealth and state and territory regulators where compliance concerns are identified for specific AAs or schools.

Audits and compliance reviews of approved authorities

The department undertakes audits and compliance reviews of AAs in relation to the basic and ongoing requirements for recurrent funding provided under the Act and the Regulations. For example, in relation to not-for-profit matters, financial viability, fit and proper person requirements, appropriate use of recurrent funding, related party transactions and conflicts of interest.

Other data and sector analysis

In addition to the above processes, the department undertakes data analysis and assessments using available data including student census data, FQ data, block allocation reports and other sectoral analyses to help inform its assurance and compliance activities.

4 Reported payment adjustments are due to changes in current or previous year/s entitlements. Entitlements are demand driven and may be recalculated throughout the year for a range of reasons, including but not limited to, changes in student enrolment numbers, student or school characteristics, recovery of overpayments in the current or previous years etc, and are reported at the approved authority level. Section 9 of the Act defines an overpayment to include where the total amount of the payment, and any previous payments made, as a result of the determination, to the State or Territory for the school for the year, exceeds the school's total entitlement for the year.

Appendix B: Non-government approved authorities and number of schools represented by sector, and state and territory

Based on the 2024 Financial Questionnaire data that is self-reported by non-government AAs for their schools and collected by the Department, there are 907 AAs representing 2,927 non-government schools. Of these, 829 (91.4%) are single school AAs, with the remaining 78 (8.6%) representing multiple schools.

Most of the large AAs in terms of number of schools are in the Catholic sector and all the smaller AAs, including all single school AAs, are in the independent sector.

The Catholic sector accounts for around 57.6% of the total number of non-government schools.

Appendix C: How is Australian Government funding for schools distributed according to need?

Australian Government recurrent funding for schools is based on the SRS. This funding is passed on to AAs who are responsible for the administration and operation of schools. For government schools, the AA is the relevant state or territory government. For non-government schools, the AA is the body corporate approved by the Minister for the school.

The Act recognises that AAs are best placed to understand the individual needs of their students and schools. AAs for more than one school are able to distribute the Commonwealth funding they receive among their schools in one of two ways:

- according to the SRS (under subsection 78(4) of the Act), or
- by choosing to redistribute that funding among its individual member schools according to their own needs-based funding arrangements (under subsection 78(5) of the Act).

AAs that redistribute funding in accordance with subsection 78(5) of the Act are known as Approved System Authorities and are required to make their needs-based funding arrangements publicly available and transparent.

Who are the Approved Authorities for more than one school?

Government Approved System Authorities (state and territory governments)

For government schools, the AA is the relevant state or territory government. All states and territory governments redistribute funding between their schools according to their own needs-based funding arrangements, as per subsection 78(5) of the Act.

Appendix D: Methodology applied for reporting on financial assistance paid to the schools sector

Methodology applied and sources of data

The data for this report was sourced from the department's internal data systems. Specifically, data was collated from the financial acquittal database and then compared with data that was used to prepare payments to state and territory treasuries. Quality assurance was also performed using actual payments made through the department's payment system.

The table below provides a summary of the funding types that have been included in the report.
